EXPERIENCE

UNIVERSITY OF CINCINNATI | Graduate and Teaching Assistant
June 2023 – Present | Cincinnati, OH

- ➜ Designing and developing a tool to allow for easy collaboration using a shared matrix of screens in a classroom or lab environment
- ➜ Creating sketches and designing prototypes with Figma before implementing new features
- ➜ Utilizing libraries such as Simple-Peer and Socket.io to allow users to come together and share content effectively
- ➜ Assisting classes of 40-60 students through bug fixes and ideation as they completed several data visualization and user interface design
- ➜ Evaluating the usability and effectiveness of student projects while providing detailed feedback on design decisions

KLH ENGINEERS | Software Co-op
August 2021 – May 2023 | Fort Thomas, KY

- ➜ Programmed a data integration web application and Revit add-in for use by over a dozen internal professional engineers and external customers across the country
- ➜ Connected a Blazor front end with a MySQL back end to efficiently display data for building design projects
- ➜ Participated in design review meetings to collaboratively design usable and accessible UI elements for the application
- ➜ Provided younger interns with a welcoming and understanding place to ask questions and talk through issues

UNIVERSITY OF CINCINNATI OFFICE OF RESEARCH | IT Intern
August 2019 – August 2021 | Cincinnati, OH

- ➜ Developed and styled web apps used to apply for hundreds of thousands of dollars' worth of grant funding using Vue.js and Angular frameworks
- ➜ Refactored the equipment tracking system for thousands of pieces of research and office equipment in a department SharePoint server
- ➜ Collected data from professors throughout the University of Cincinnati and created helpful visualizations for users to ingest the data
- ➜ Diagnosed technical issues and answered questions for office of research staff

TECH ELEVATOR | Curriculum Design Intern
May 2019 – August 2019 | Cleveland, OH

- ➜ Collaborated with the curriculum design team of a coding bootcamp refining the learning process for students as an outside perspective on the course
- ➜ Tracked and documented the progress of 15 students through a 12-week full-stack development bootcamp
- ➜ Assisted with procurement and preparation of materials for external remote company bootcamp classes
